- Technical Tools:** Advanced Excel | Power BI | SQL | Python | PowerPoint

PROFESSIONAL EXPERIENCE

Business & Commercial Analyst | Makewell Buildtech Private Limited, India | *April 2024 – March 2025*

- Identified 6 manual process inefficiencies consuming 20hrs/week through workflow mapping and gap analysis; automated Excel pipelines via macros and dynamic formulas - reducing operational processing time by 80%, eliminating reconciliation errors across 20+ daily vouchers, and improving KPI reporting efficiency.
- Detected revenue leakage across vendor accounts; executed billing reconciliation and invoice accuracy review - achieving 99% accuracy, surfacing ₹3L+ in annual discrepancies, and strengthening cash-flow forecasting and revenue assurance.
- Identified declining client retention across 15+ accounts; redesigned four-statement financial reporting suite and management accounts pack with proactive advisory protocols and commercial due diligence - driving 55% client retention uplift and 12% increase in long-term profitability.
- Diagnosed cost overruns across 3 operational workstreams through root-cause analysis and scenario modelling; deployed targeted spend controls - delivering 7% YoY cost reduction and 4pp gross margin improvement while sustaining 89% operational efficiency.

Founder & Growth Lead | The Pinterest Store | *July 2023 – March 2024*

- Identified a D2C commercial opportunity; built and scaled a self-funded business with full P&L ownership, designing pricing strategy and conducting price elasticity and margin optimisation across 450+ SKUs - reaching profitability within 6 months.
- Diagnosed underperforming campaign conversion through data analysis and A/B testing across 10+ campaigns - achieving 72% conversion rate uplift and 30% increase in average order value through commercial optimisation and revenue impact modelling.

CONSULTING PROJECTS

Strategy Consultant | Auditsu, UK

- Engaged to diagnose an underperforming operating model and GTM strategy; applied PESTLE, Porter's Five Forces, Value Chain Analysis, and STP with competitor benchmarking - delivering a board-ready restructuring roadmap projecting 30% qualified pipeline uplift.
- Identified critical product-persona misalignment through requirements analysis and primary stakeholder interviews; redesigned value proposition and commercial pricing recommendation - reducing buyer persona gaps across 3 segments and informing Auditsu's revised GTM strategy, contributing to the projected 30% qualified pipeline uplift.

SME Commercial & Financial Health Diagnostic | Pro Bono Consulting Project

- Identified financial health deterioration in an under-resourced SME with no structured reporting or cost controls; executed financial modelling, break-even analysis, management accounts review, process mapping, and operational assessment - reducing working capital cycle by 18 days, improving gross margin by 6pp, and surfacing revenue leakage through billing reconciliation.

EDUCATION

MSc Management (Distinction Track) | The University of Manchester, UK | *2025 – 2026*
